64 items / 5 pairs Total 320pairs

Dear footwear retailers and distributors

Shoelace display on the special rack would be able to offer

- let your customers enjoy shopping
- improve the expertise of footwear store by fulfilling related products

A Business Proposal

Are you interested in having a shoelace section at your store?

Would you like your customers to enjoy shopping shoelaces from a huge selection of patterns and colors?

Would you like to improve the expertise of footwear store on a tiny budget?

Your customers get a chance to look at large variety of shoelaces on a special display rack at a glance. Customers also have a great time choosing their shoelaces for change while considering buying shoes and other goods at your store.

Our shoelace

<Printed shoelace>

Printed shoelace is one of the most popular items.

Checkered pattern, animal print pattern and many other patterns.

<The other type of shoelace>

A single color, braided pattern, and many other kinds

We can make many different shoelaces by combining different yarn and materials in a different way of stitches. Some of them are more popular than the printed shoelace.

Repeat Order

We do our best to maintain good production system and proper stock volume to meet repeat order ASAP.

YHT is

a wholesaler dealing with shoelaces in Japanese market.

We have supplied large selections and volume of shoelace to retailers in Japan. In spite of a great variety of shoelace for change, customers do not have many chances to see them at a store and some don't even know that there is one.

We would like your customers to take a look at large variety of shoelaces to enjoy picking up selections.

The set of display rack and shoelaces would be attractive for your customers and effective way of market for your business.
